Courtesy of Teens Read TooVon TeensReadTooHaley may be the luckiest girl at Hillsdale High, even if she doesn't know it. She is the new girl. After moving across the country she has a new haircut and a chance to start over. The only

problem is that there are a ton of decisions to make and each one will affect the way her new high school career turns out. Luckily for her, other people get to make them for her! In this "choose your destiny" book, readers get to make important social decisions for Haley. Each decision changes the ending in some way. There are a variety of characters that remain the same in each version, but the endings are all different. Should Haley take one of her new friends back to California, or will that spell disaster by mixing her old life with the new one that is going so well for her? Sasha, the soccer star, is suddenly acting strange. Should Haley tell her parents or try to investigate it herself? Along the way there are a variety of gorgeous boys of all types to choose from. Haley will end up with a boyfriend, but is one better for her than another? On the whole, the book seems to move really quickly and moves from one decision to the next; at others the reader may feel like they missed a step, but it is easy to catch up and is likely a result of multiple ways of ending up in the same place. After reading all of the endings, some are a little more satisfying than others. In my first reading, I made decisions for Haley as I would have made them in my life. That ending ended up being my favorite, but will that be the same for every reader? It's all part of the fun of choosing your own path. Reviewed by: Allison M. Rotonda

Kurzbeschreibung Haley's back at Hillsdale High after a New England vacation with her family. She's got a new haircut and some great new clothes, but the same problems--and the same people--continue to follow her. Coco and Whitney want to groom her to become the next Coquette now that they've kicked Sasha to the curb, but is Haley ready to make the changes they demand? Meanwhile, Sasha seems to be in serious trouble, and Irene is still willing to take Haley to San Francisco with her. So many possibilities! So many choices! Haley's future is in your hands--choose wisely! From the Trade Paperback edition. From School Library Journal Grade 7-10 Told in the style of the now-antiquated "Choose Your Own Adventure" series, the story allows readers to determine the course of the plot by offering choices at the end of each segment (To go to the cafeteria turn to page 10, to stay alone with Sebastian turn to page 59). Many of the plot choices result in the same outcomes and several end in failure, requesting that readers return to page one and try again. The novel hinges around Haley, her friends, and their romantic and social prospects and problems. The flat characters are archetypes of vapid teens. "At least if her hair proved to be a disaster, she had on a cute outfit." Boldface transitions at the end of each segment attempt to hype the interaction, adding drama where none was effectively conveyed otherwise. The book fails to portray a genuine teen voice, lacks theme, and fosters xenophobia-"Flirting with someone from another culture is one thing. But actually dating a foreigner?" Although the cover may draw in reluctant readers, the story itself has little plot and questionable values.
