Erik is not only explaining why tithing is not mandatory for Christians, he does a great job explaining how we came to the point of embracing such an anti-Jesus theology in first place. Really an eye opener.

KurzbeschreibungSecrets. Secrets. Oh, we love a good mystery, dont we? What arent preachers telling us about their demands for tithes and their requests for offerings? The short answer is were being deceived, bullied, and manipulated. The longer answer is this book.Millions of Christians are under the impression that the salvation they received freely by grace through faith actually costs a non-negotiable lifetime fee of ten percent of their gross income. Preachers (usually) dont explain it this way, and Christians dont (usually) think of it this way. But when all is said and done, when the preachers demand is logically examined and followed to its inevitable conclusion, the benefits of salvationand in the more shocking cases, the possession of salvationare directly dependent upon whether we pay ten percent of our gross income to the church. Of course, the gospel needs to be preached. Of course, the churchs bills must be paid. Of course, worthy ministerswhom I call super servantsshould be financially supported. But is the modern financial tithe system Gods way of supporting His work?What Preachers Never Tell You About Tithes Offerings: The End of Clergy Manipulation Extortion asks tough questions and provides biblical and common sense answers.
