KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. Not bad, but not really a great read either...Von M.The book is about the author's personal experience so that makes it a bit hard to criticize. I still had expected "more" in a way. I think it was just her style of writing that I did not like. I did not find

it all that interesting to read, but it was not bad either.
