A book to stimulate your prayer lifeVon Ein KundeMothers long to have a positive influence in their children's lives. This book says they can--through prayer. Fuller shares answers to prayer from her life, mothers in history, and today's moms praying worldwide in Moms In Touch International, an organization of moms praying for their children and

schools in over 85 countries.(1-800-949-MOMS)Choose any season of parenting, including grandparenting, and find practical suggestions to motivate and equip you to pray for children at that stage. There is also special encouragement for moms of prodigals. The author goes beyond praying for children and encourages readers to pray for their schools, neighborhoods, and worldwide revival. The final chapter reveals that as we pray, the one most changed is us.0 von 0 Kunden fanden die folgende Rezension hilfreich. This book puts into perspective what prayer is all about!Von Kimberly White (supermom82@aol.com)Cheri Fuller leads her reader through many different aspects and levels of praying for ones child/ren. Her book brings into focus the special relationship between God and Mothers and how we must allow God to do his part without our holding him back.By stepping back and letting God do His will, we not only set our children free, we set ourselves free from the constant pressure to control situations that were God's to control to begin with!Cheri's statement ("Effectual prayer means being completely committed to God's will. The prayer that brings results--that is great in its power--is one where we don't give God the answers...") couldn't be more true!I highly recommend this book to Mothers of ALL ages!!!0 von 0 Kunden fanden die folgende Rezension hilfreich. Very helpful comforting for worried moms.Von Ein KundeThis book is an EXCELLENT source of strength, insights, guidance, and most importantly HOPE for any parent. While the book covers all stages of a child's life, each section contains ideas and hope, regardless of the section's overall relevance to the stage you are at. While the book definitely has a Christain focus, it is not overbearing. The difference in my 21 year old daughter is nothing short of MIRACULOUS, especially in the last couple of months. I simply cannot recommend it highly enough for parents who are worried about their children. One of the few resources for parents of late-teen, early-twenty year olds.
