Fun! Von Ein Kunde I love this book, but I can't wait for the second volume when they go back to the 80s yeah, a great decade teen idols like Corey Hart, Paul Young, former Baby John Waite, a very young Madonna and loads more. Randi, you're the greatest you made my life great when I purchased the book two years ago I still love this book Peace Love Rosie from Brooklyn, NY

Kurzbeschreibung Who's Your Fave Rave?, about the stars in 16 Magazine, will take you back to your teen years...when young superstars like The Beatles, Michael Jackson, Donny Marie, David Cassidy, the Monkees--every teen idol from the '60s and '70s were interviewed and photographed. Who's Your Fave Rave? written by former editors Randi Reisfeld and Danny Fields, is the REAL STORY of each celebrity...conducted through new, extensive interviews. What was life really like for David Cassidy, Michael Jackson, Donny Osmond, Davy Jones the Monkees--as opposed to the image portrayed in 16? Here's the real deal from each star who made you swoon! Go back back to that special place, those cherished years before websites, blogs and tweet, when YOU ran to the store to buy the latest 16; when you gobbled up every last tidbit about your faves. As founder Gloria Stavers said, "It's that special time in your life when you're too young to date, but too old to sit on daddy's knee." Guaranteed: lots of OMG--I LOVED him; smiles, and yeah, emails to your friends. Memories of who YOU were back then...and who you are now..de Unlike Seventeen magazine, which soothingly encouraged teenage girls to fixate on zits and the raging controversy over eye shadow versus eye color, 16 focused entirely on the raison d'être for Seventeen's fixation: boys. Here to fan memory's flames is the magazine's 40th-anniversary collection that culls the photos of and interviews with those smooth-chested, coifed teen idols from its first issue in May 1957, which featured Elvis as its cover boy, as well as the bad-boy, shaggy-haired groups of later issues. Gloria Stavers, the personality behind the magazine, discovered a whole new audience in teenage girls. Their fan mail to 16 reminded her that when she was a teen, "the color of his eyes, the color of his hair--what adults would call 'dumb little things'" were all that mattered. She took that wide-eyed, breathless, adoring tone in her interviews with the teen idols that gave the magazine its flavor. Who's Your Fave Rave? proves, in a way, that you can go home again, if just to marvel at the passions that pompadours unleashed in the early '60s, the hysteria induced by '70s hippies, or the euphoria that the feathered bangs of early '80s hunks inspired. This scrapbook--its grainy, cheap papery feel intact--will carry you back to the acne innocence of days gone by.
