Von C. Stephen Evans : Why Believe?: Reason and Mystery as Pointers to God before purchasing it in order to gauge whether or not it would be worth my time, and all praised Why Believe?: Reason and Mystery as Pointers to God:

Kundenrezensionen Hilfreichste Kundenrezensionen 0 von 0 Kunden fanden die folgende Rezension hilfreich. This book will change lives Von Ein Kunde The coverage and depth of the book are just right as Christian apologetic for the average person. I was a seeker for 19 years (starting in college) and was saved about a year ago. I have wished since that I could write a book for all those seekers out there like I was, that found it impossible to believe and keep respect

for ALL truth. I wanted them to know the Truth, that it all makes sense! I am glad someone else wrote that book. The book covers all the areas that a modern person questions, such as science, miracles, evil, other religions. There is obviously a lot of depth behind what is included, and at times I wished the book were hypertext so I could click on something and get more deeply into the subject. But I think the choice of depth was right for a general audience, and I think LIVES WILL BE SAVED by this book. Praise God who is so patient and respectful of our questioning! 0 von 0 Kunden fanden die folgende Rezension hilfreich. Why Believe (republishing of The Quest for Faith) Von Ein Kunde This title originally published by Inter Varsity Press under the title The Quest for Faith ISBN 0-87784-511-5. Having been loaned a copy of the original title, it was not easy to find a copy to purchase for my own library. Evans helps to uncover the "clues" God has left for those of us who have a difficult time believing in His existence. The first six chapters would be beneficial to most anyone, after that, it is specific to Christianity

Kurzbeschreibung C. Sephen Evans has written a pointed and personal book directed to those who want to have faith but whose thinking has been obscured by the static of prevailing philosophies, illuminating the attraction and reasonableness of Christianity. Kurzbeschreibung C. Sephen Evans has written a pointed and personal book directed to those who want to have faith but whose thinking has been obscured by the static of prevailing philosophies, illuminating the attraction and reasonableness of Christianity. Synopsis Reason and mystery as pointers to God. The idea that Christian faith is unacceptable to a person with an intellect can be a barrier to faith. This book is an attempt to remove that barrier.
