KurzbeschreibungWhy do they get toast? Is a therapeutic story about a young girl called Jodi and her introduction to a special classroom where some of the other children in her school regularly visit. A chance invite from the quiet and shy Chloe allows Jodi to visit what is known as The Lighthouse nurture group and from here she finds out what actually goes on, the reasons why this class exists and the secret to why the children get toast. This uplifting story helps to overcome the many misconceptions that exist about Nurture Groups and Emotional Literacy in schools. It explains how Nurture Groups enable children to get ready to learn and encourages tolerance and empathy of children

who need a little extra help. The story is great to share with children, whether you are a parent, grandparent, teacher or work in a nurture group or role that supports child emotional and social development. Read, enjoy and get a little toast.
