The profound experiences of an influential American mystic.Von Ein KundeConsistently written from a space of incredible compassion and profound understanding of the human condition, Dr. Howard Thurman's extraordinary path unfolds as if it were any man's path. He was mentor to the young Martin Luther King, friend and confidante of

Mahatma Gandhi, and founder of San Francisco's Church for the Fellowship of All Peoples; all performed while living the experience of a black man during America's most racially turbulent years. Though he comes from a Christian background and is steeped in Christian theology, his understanding is that of the mystic; seeing the heart of truth in all the world's belief systems. Dr. Thurman is not widely known, but should be on the reading list of anyone who seeks insight into how to move the heart into the world. I will never be without Dr. Thurman's guidance in my life again! Von 0 Kunden fanden die folgende Rezension hilfreich. One of the great American Memoirs of the 20th Century! Von blwmm@aol.com or Bernie Welch I recently returned to Thurman's autobiography after 15 years. I am developing a course in Composition/African-American Literature. Thurman's words will be the springboard. His prose is elegant and concise; his sensitivity to nature, a poetic model; his expansive spirit, inspirational. Many chapters will serve as exercises for writing; e.g.: his instruction for the preparation of sermons. In fine, his response to life is a guideline for good writing and holy living. The only weakness of the book is that often the compilers feel the need to tell us what Thurman is going to say. Not sure so much from Disciplines of the Spirit needed to be reprinted. I read much of the book during a 12 hour Prayer Vigil and found it very enriching and satisfying.

Kurzbeschreibung Howard Thurman was a unique man—a black minister, philosopher, and educator whose vitality and vision touched the lives of countless people of all races, faiths, and cultures. Index; photographs.
