This book is one of my best childhood memories Von Ein Kunde This book is about the experiences of a white boy and an Indian boy who are trapped in the Rockies during the winter. It was written in 1912 and is said to be a true story as told to the author, who in the 1870s lived among the Black foot tribe. Full of adventure, it is also a moving story of

cooperation by members of two different cultures, and the friendship that develops between them. I would highly recommend it to parents. I read this book in elementary school and for over 20 years, I could recall scenes from the book, but was unsure of the title. When I moved back to my home town, I searched the local schools for it, without success. I had told my family about this on many occasions and recently my mother found it in her attic. She had bought it at a school book sale years ago and it had been sitting in a box since then. She surprised me on my birthday with it and it was great to read and see how my memory compared with what was actually written. 0 von 0 Kunden fanden die folgende Rezension hilfreich.
