extremely comforting when you lose a loved oneVon Ein KundeThis book is about the author's out of body experience and visit to heaven. I found it to be basically scriptural. There were a couple things I questioned but she herself wrote that she was writing from memory.I have just lost my 13 yr. old granddaughter and the book was so very comforting as it told of the great love of God and written with an anointing that lets you feel God's love. It describes the Glory of God and the wonder of Heaven.This book also confirms that we will, indeed see our loved ones who are in Heaven again. (providing they are born again and in heaven).Many people I know who have read this book, including myself found it difficult to put it down. I found it to hold my interest and I was able to visualize myself right there with the author in Heaven.I would recommend this to anyone. Especially to those who have lost a loved one.0 von 0 Kunden fanden die folgende Rezension hilfreich. Very Comforting and Highly RecommendedVon LouiseMy pastor recommended this book after the death of my son, and it was a tremendous help, giving me a lot of comfort. It was so good, I kept giving them away- so I was on my 7th book before I finally finished it! I could barely put it down, yet kept giving it away! Finally one Sat. I read the whole book. (I just ordered 3 more) This is a book I will read over and over, although I'm not one to read books more than once. It lines up with the Bible, and so easy to read.
