Remembering is Painful - but Intersting to ReadVon KundenrezensionenLogan has started to remember all the things that the Weapon X-program had surpressed in his mind. Now he has to live with his memories - and to fight against

people who try to rekindle the "success" that Logan himself has been for the program. And so he meets some "super-soldiers" that would create nightmares in everyone. Logan seems to be trying to come to grips with his past but his friends see something else there - but the old canucklehead was never one to like friendly advice. Very in style in writing and pencilling, this comic gives us a new take on the "super-soldier"-idea in a world, in which these projects have become more and more privatized. Gripping reading.

Kurzbeschreibung Collects Wolverine: Weapon X (2009) #1-5. In the jungles of Colombia, people are turning up dead, whole villages brutally slaughtered by a team of soldiers who move through the shadows like ghosts. On the streets of San Francisco, Logan learns that the files from the old Weapon X program, the blueprints for building Adamantium-laced super soldiers like himself, have fallen into the hands of the evil corporation, Roxxon. Once again, it seems, someone is looking to build the perfect killing machine. That means it's time for Wolverine to step in, and remind them that someone already did.
