**Von Marcia Yudkin : Writing Articles About the World Around You (English Edition)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Writing Articles About the World Around You (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen0 von 0 Kunden fanden die folgende Rezension hilfreich. An inspiration-packed, practical guide to selling articlesVon Robert M. BittnerI found the title lackluster and vague, but the contents themselves are first-rate. The book is jammed with brainstorming ideas and practical tips for selling

articles of national interest---no matter where you live. Yudkin certainly brings her own expertise to the topic, but she also includes a generous sampling of quotes and helpful advice from other real-life freelancers and writing professionals. There are fewer than half-a-dozen writing books I return to year after year for inspiration and refreshment; this one will certainly join that select number.0 von 0 Kunden fanden die folgende Rezension hilfreich. A very informative, practical guide for writers.Von Ein KundeI was very impressed with the way it used real-life experiences to teach its lessons. It gives you the feeling that it is very possible to get an article written and published. The information I absorbed from it was extremely helpful in starting me on to future success. It is a must for any writer (especially the beginner).0 von 0 Kunden fanden die folgende Rezension hilfreich. shows you how to turn your ideas into cashVon Ein KundeBy looking around and using the stuff of your every day life, you've got fodder for dozens of articles -- and this book tells you how to turn them into query letters and articles that will have editors asking you back for more.

KurzbeschreibungGet Started Writing for Magazines - and Learn to Make a Living At ItThrough examples, explanations and tips, Writing Articles About the World Around You demonstrates how to generate original and saleable article ideas using information that is part of your everyday life. Even if you live in Nowheresville, you'll learn how to recognize topics and angles that can interest editors at magazines and newspapers.\* Use your experience, on-the-job knowledge and everyday life to develop how-to articles, reviews and opinion pieces\* Create interest in ordinary or unusual topics using the elements of timeliness, curiosity, empathy and entertainment value\* Highlight people you know or you can easily track down in fascinating profiles, QAs and roundups\* Write travel features about nearby places that you probably take for granted\* Master the mechanics of good article writing, including the article structure editors expect and readable prose \* Target the right publications for your work with persuasive query letters\* Understand the key issues to discuss with your editor - deadline, angle, length, payment, kill fee and publishing rights\* Decide whether you want to build a fun sideline to what you currently do or a new full-time career as a freelance writerAuthor Marcia Yudkin entertains and teaches you with her experiences writing for local and national magazines as well as the insights of dozens of successful writing-from-home freelancers involved in everything from riding, gardening and home repair to business, aviation and the arts.The timeless advice in this guide will inspire you whether you're a complete novice in writing or a journalism grad who's not sure how to get going with real-world magazine freelancing.KurzbeschreibungGet Started Writing for Magazines - and Learn to Make a Living At ItThrough examples, explanations and tips, Writing Articles About the World Around You demonstrates how to generate original and saleable article ideas using information that is part of your everyday life.
