**Von Wendy Laura Belcher : Writing Your Journal Article in Twelve Weeks: A Guide to Academic Publishing Success (electronic version) (English Edition)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Writing Your Journal Article in Twelve Weeks: A Guide to Academic Publishing Success (electronic version) (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen6 von 6 Kunden fanden die folgende Rezension hilfreich. should be compulsory reading for PhD studentsVon Birgit FriedlThis workbook is extremely helpful for revising e.g. a conference paper for publication in a journal, with lots of hints on how to get papers published. I wish this book would have been available when I was a PhD student --- would have spared me many hard lessons until my first papers got

accepted. The best thing about the book is that it is extremely encouraging, telling over and over again that everyone can write and that writing is important (and should be done everyday) but it is still not THE most important thing in life. I currently use this book in a writing class for PhD students in economics, and my impression is that they enjoy using this book very much. Regarding disciplines, the book is written for social sciences and humanities. It might be less relevant for natural sciences. 1 von 2 Kunden fanden die folgende Rezension hilfreich. Das Buch spricht wirklich alle Aspekte des akademischen Schreibens an. Es ist etwas ausführlich geschrieben. Man muss sich auch die Zeit zum Lesen nehmen.

**Kurzbeschreibung** This is the fully functional new Kindle format of Wendy Laura Belcher's *Writing Your Journal Article in Twelve Weeks: A Guide to Academic Publishing Success*, a revolutionary approach to enabling academic authors to overcome their anxieties and produce the publications that are essential to succeeding in their fields. Previous Kindle versions of the book had technical problems, but those were fixed and this formatted version was posted March 2016.
