**Von Seyyed Hossein Nasr : Young Muslim's Guide to the Modern World (English Edition)** before purchasing it in order to gage whether or not it would be worth my time, and all praised Young Muslim's Guide to the Modern World (English Edition):

Kurzbeschreibung Through Muslim maps of the modern intellectual landscape, the author challenges two fronts: young Muslims to become familiar with their religion and cultural roots and to gain an understanding of the modern world from the Islamic point of view. This guide for the Muslim to the modern world the first of its kind in any language presents the eternal truths of Islam as well as Western religious and intellectual tradition as they confront each other in today's world. The Islamic perspective is so unique that NPR (National Public Radio)'s Robert Siegel discussed the work with the author on the All Things Considered program. Pressestimmen 'Of all the books Seyyed Hossein Nasr has written, this is the most elegant and informative. It is an extremely valuable and highly commendable introduction to the message of Islam and the contemporary world.' The Muslim News; 'Packed full of information on the modern world and the world of Islam... There is much of interest for the non-Muslim readers as well who feel intrigued, fascinated and threatened by Islam as a potent force in the modern world.' Journal Institute of Muslim Minority Affairs.
