Von David Bowman : Zen Comma (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised Zen Comma (English Edition):

Von SimoneIt's not difficult to find a book on English grammar, but it's quite a challenge to find one that deals with commas - exclusively. David Bowman has filled this void with his "Zen Comma". In 17 chapters, he explains all the fundamental rules, provides examples, and points out the traps that unskilled comma users might step into. While I consider myself to be "in the know" when it comes to commas, it's still very useful to have this little guide on my shelf. Commas can be mean little bitches if you don't know how to handle them. :-) 5 stars well deserved.
